

Karakoram International University (KIU), Gilgit,
Pakistan

Department of Computer Sciences.

Dated: sep 14, 2022

TO WHOM IT MAY CONCERN

I am glad to give my recommendation for Sajid Khan S/O Ehsan Ullah for his futuristic academic plan. Sajid Khan is known to me as one of my talented and hardworking students in Department of Computer Science Karakoram International University, Gilgit Pakistan. He has completed his undergraduate degree in Software Engineering i.e BS (SE) from KIU. During his degree program I have taught various courses including; Programming Fundamentals, Database Systems and Web Engineering. He always inspired me with his knowledgeable, hardworking, and naturally talented aptitude and I have always found him curious to learn new things.

During my mentoring I found that he can get along very well under critical circumstances and can become sociable quickly because of his strong communication skills and willingness to uncover the knowledge and understanding of new areas in his field of study.

Mr. Sajid always takes his work with a willingness to go for the extra mile to get the highest level of formal and conceptual refinement. His fellow students commented favorably about his leadership and problem-solving skills. I am always impressed by his ability to integrate attention to detail with extensive focus that allows contemplating how effectively compositions work. He possesses an astute sense of turning a concept into realism.

In summary, Sajid Khan meets all expectations to move to the higher level of studies in his domain knowledge. Therefore, I am confident to give my highest recommendation. Sincerely Yours.

Dostdar Hussain
