To Whom It May Concern

Mr. Sajid Khan S/O Ehsan Ullah is known to me since 2019, who remained my student during session 2019-2023, under registration No. 2019-KIU-BS1014 at Karakoram International University Gilgit-Baltistan. He has been one of the brilliant students who worked under my supervision. As a student I found him hardworking and devoted towards his studies and has an excellent academic record throughout his career. He is a persevering and intelligent student as far as academics is concerned, which is clearly seen in the admirable marks that he has consistently achieved.

As far as research capability is concerned, I was the supervisor for his BS (Software Engineering) Final Year Project (FYP)/thesis. He did an excellent job towards his FYP. He has developed "House Wise Solution" an Android based mobile application dedicated to connecting homeowners with a diverse range of verified service professionals. This user- friendly app empowers homeowners to effortlessly browse an extensive database of skilled technicians such as A/C technicians, painters, plumbers, and other essential home service experts—all meticulously vetted for reliability and excellence.

Mr. Sajid Khan is fluent as far as the English language is concerned. He is equally competent to read, write and communicate. On the personal side he is a person of highest integrity, and I can recommend his honesty and helpfulness to his dealings with others. Overall, he bears an excellent moral character. He is active and very accurate in his dealings.

I do not hesitate to say that Mr. Sajid Khan has the ability to undertake any assignment related to his background of study. I will highly recommend him to work or proceed for a higher study program in a well reputed institution. I wish him every success in his life.

Sincerely Yours,

Dr. Zar Nawab Khan Swati

Chairman/Associate Professor
